**FCC TO RELEASE STUDY FOCUSING ON ROLE OF COMMUNITY-BASED ORGANIZATIONS IN LOWERING BARRIERS TO BROADBAND**  
*Study Examines Broadband Adoption in Low-Income Communities*

Washington, D.C. – The Federal Communications Commission (FCC) and the Social Science Research Council (SSRC) will unveil the study findings of the SSRC in its report, *Broadband Adoption in Low-Income Communities*, March 2 at an event hosted by the American Library Association (ALA).

**WHEN:** Tuesday, March 2, 2010, 10:30 – 11:30 a.m.  
**WHERE:** Rayburn House Office Building, Room 2261  
50 Independence Avenue Southwest  
Washington, DC 20515  
**WHO:** John Horrigan, FCC consumer research director  
Mark Lloyd, FCC associate general counsel and chief diversity officer  
Dharma Dailey, SSRC independent researcher director  
Amelia Bryne, SSCR independent researcher  
Emily Sheketoff, ALA Washington Office executive director

The FCC commissioned the study to help inform their understanding of barriers to broadband adoption and to shape the National Broadband Plan due to Congress on March 17 under the American Recovery and Reinvestment Act.

The presenters will discuss the contexts for understanding barriers to broadband adoption. Such challenges vary from price to skill and language barriers to the challenges of community-based organizations, such as libraries, in providing broadband access for those without it at home as well as instruction on using the Internet.

After the program, participants will take questions from the audience.

For additional information on this event, please call the American Library Association at 202-628-8410.
